

Long-Distance Moving

STEP 1

GET AN ESTIMATE FROM AN ATLAS® AGENT

Click to receive an online moving estimate. Or, click to find your local Atlas® Agent. In either case, an Atlas® moving expert will answer any questions about your long-distance move, and help you get started.

STEP 2

SCHEDULE A MOVING SURVEY

Schedule your free in-home estimate with an Atlas® Agent to survey and estimate the size and weight of your long-distance move.

You also have the option of using our Atlas® Video Survey app to receive an estimate, no onsite visit required.

STEP 3

CHOOSE YOUR MOVING SERVICES

Your Agent can guide you through optional long-distance moving company services such as packing, protection, storage and staging, or even moving your vehicles or other special items. You will receive a custom written estimate.

STEP 4

BOOK YOUR MOVE

Based on your written estimate and service options, "book" your long-distance move. Plan the timing and confirm your service options. Your Atlas® Agent is there to help you plan.

STEP 5

GO NEW PLACES®

On moving day, sit back and let Atlas® carry the load. It's what we do best. Experienced crews protect your home, load your belongings, and move your items all the way to your new place, including putting the furniture where you want it.
